

TUNE-UP KITS

Give Your **DIAMOND**
 Rebar Cutter New Life
 with a Tune-Up.

**Don't just replace the cutting blocks;
 Maintain it right with a Tune-Up Kit.**

Tune-Up Kits are available for all of our rebar cutter models, these kits contain the routine maintenance parts that should be periodically checked or replaced. This kit doesn't contain any internal replacement pump parts.

Tune-up kits contain: A set of cutting blocks, the cap bolts and lock washers for fastening the cutting blocks, a quart of hydraulic oil, a stopper bolt with spring, a set of the electrical motor carbon brushes and a cutter handling instruction booklet.
